

DUEÑAS TRAILERS

CHASSIS

SMART CONTAINER TRANSPORT

Space Solution
for Your Business

CHASSIS

Container Transport Solutions.

Chassis are essential for the efficient transportation of shipping containers between ports, warehouses, distribution centers, and operational facilities.

Dueñas Trailers provides reliable chassis designed for durability and flexibility, ensuring safe and efficient container movement within logistics operations. Our chassis are built to support multiple container sizes and transport requirements, making them a key component of intermodal transportation.

AVAILABLE CHASSIS TYPES

20' Chassis

Designed specifically for the safe and efficient transportation of 20-foot containers.

20' Sliding Chassis

Adjustable chassis that can accommodate different container positions, providing greater operational flexibility.

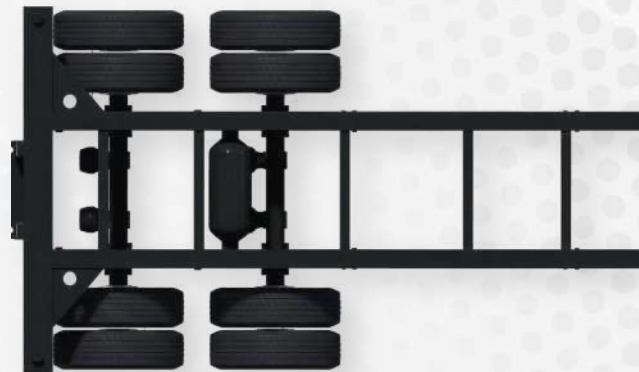

40' Chassis

Heavy-duty chassis designed to transport standard 40-foot containers for logistics and freight operations.

45', 48', 53' Chassis

Chassis that can be adjusted to support multiple container sizes, offering versatility for transportation needs.
